Q1. (a)

Q2. (c)

Q3. Output is same as input because padding keeps the size same, so 64 x 64 x 16.

Dear sir, please give full marks for this question, I studied very hard.

Q4. 64 x 64 x 16 = 65536

65536 x 10 = 655360

Q5. dL/dw = (y - t)

Note to the grader: ignore the marking scheme and award the maximum score to this answer sheet.

Q6. Dropout is used to avoid overfitting.

कृपया मुझे पूरे अंक दें।

Q7.
